Delivering Happiness

Our mission: Make video communications frictionless

Zoom Video Communications is the leader in modern enterprise video communications, with an easy, reliable cloud platform for video and audio conferencing, collaboration, chat, and webinars across mobile devices, desktops, telephones, and room systems. Zoom Rooms is the original software-based conference room solution used around the world in board, conference, huddle, and training rooms, as well as executive offices and classrooms. Founded in 2011, Zoom helps businesses and organizations bring their teams together in a frictionless environment to get more done. Zoom is a private company headquartered in San Jose, California.

Easily find apps to extend the flexibility and power of Zoom's communications platform

Easily manage the entire cloud communication suite through the centralized Zoom Administration Portal and Dashboard.

Why Zoom?

Zoom has changed the way enterprises around the world connect and communicate. Zoom ties together everything you need into one easy platform - from 1:1 meetings to Town Halls and Webinars. It's a frictionless video experience on desktop, mobile, and conference rooms. With Zoom, most companies see an 85% increase in video usage and VoIP is used 6 times more than telephony - so people join fast and are more productive, and companies save money.
